**DESIGNED AND MANUFACTURED IN AUSTRALIA**

## **GET PEACE OF MIND AND MORE OUT OF YOUR 4WD NEXT WEEKEND**

### **UNIQUE NEW PRODUCT**

How often do you hear about the new 4WD owner who will never take their vehicle out on the beach or into the bush because of the dramas in cleaning the interior afterwards? "No Bull Accessories" new "SANDGRABBA" moulded PVC 4WD floor protection system, designed in Queensland to suit our Australian outdoor lifestyle, eliminates one of the biggest negatives most new 4WD owners have about taking their vehicle on the beach or into the bush, SAND OR MUD ON THE CARPET.

### **MOULDED TO FIT EXACTLY**

The new "SANDGRABBA" system is moulded in quality PVC to fit the shape of your vehicle's floor exactly. The moulded well in the centre of the floor mat is designed to catch all of the sand and mud carried into the vehicle on feet and boots before it ever reaches your carpet.

### **UNIQUE LOCKING SYSTEM STOPS MOVEMENT UNDERFOOT**

The easy fitting clips not only hold the "SANDGRABBA" system in place, they also make it easy to remove the floor mats from your vehicle so they can be hosed clean.

### **CHOICE OF COLOURS TO MATCH YOUR INTERIOR**

The "SANDGRABBA" System is available in 3 colours Black, Grey and Beige.

### **FRONT OR REAR AVAILABLE**

Supplied as a set of 2 front floor mats or a set of 2 rear floor mats going right across the rear seat compartment, the "SANDGRABBA" system not only works great but looks so good that once cleaned, you are ready for the shopping or work on Monday.
